

Input conversion error, unit 3 file test.cio

Posted by dechrist - 2009/03/06 18:51

Well I am trying my first attempt at running the simplest swat modle through this interface. Very nice, I have got to the point where I am not sure what is wrong. I have the following error.

forrtl: severe (64): input coversion error, unit 3, filetext.cio

any ideas

Noticed when I hit modify climate I get error?????

Posted by dechrist - 2009/03/10 19:31

FormSWATWrite.btnModifyClimate_click() could not load assmbly

any ideas

Can you give us a little more information about what you were doing when you got the error? Also, it looks like you're getting two separate errors. Did the first error follow the second?

What WGN file were you using and what station did you have selected when you clicked the Modify Climate button?

Thanks

Shea
